

Product Overview

Amazing value and performance. The CL-3 is a direct replacement bulb equivalent to a 45 watt incandescent bulb. The CL-3 uses a revolutionary direct dispersion bulb housing to produce light that is very much like that from a traditional incandescent light bulb. You can use the CL-3 anywhere you would use a traditional light bulb, even in lamps that require a lamp shade.

Applications

General Illumination, Desk Lamps, Lamps with Lamp Shades, Bathroom/Vanity Lighting, Ceiling Fan Lamps

Specifications

- Light Engines: 3 x 1 Watt CREE Power LED Light engines
- Luminous Flux: 240 lumens
- Physical Dimensions:
 - Overall Length – 3.92 in, Length from Base of Socket – 2.93 in, Diameter – 2.03in
- Beam Angle – 180 degrees overall
- Operating Temp: < 127 F / 53 C
- Lifespan: >50,000 Hours
- Construction: Composite Main Housing, Aluminum Heat sink, Frosted White Dispersion Lense
- Base Types Available: E27
- Color Temperatures – Warm White, Cool White
- **Cost to run for one year* - \$1.30**

* Calculated assuming 12 Hours a day operation, 365 Days a Year with .10 KWh Electricity Cost
